

Pointer for Windows

Quick Installation Guide

Install Pointer

After you have verified that your computer meets the system requirements, you can begin to install Pointer.

Vision6 Users: You must install Vision before you install Pointer.

1. Log on to the computer as an administrator.
2. Quit all programs.
3. Quit all virus protection utilities or filters.
4. Run the Pointer Setup program.
 - If you are installing from a file that you downloaded, open the folder where you saved the Setup program, and then double-click **Pointer2_XSetup.exe**.
 - If you are installing from a CD, insert the CD in the proper drive, point to **Pointer**, and then select **Install Pointer**.
5. Click **Next** to start the installation.
6. Read and accept the licensing agreement.
7. The wizard guides you through the Pointer installation. Follow the instructions on the screen.
8. After you complete the installation, restart the computer and any virus protection utilities that you use.

System Requirements

Before you begin to install Pointer, verify that your computer meets the following system requirements.

You must also have a valid serial number to activate Pointer. (You can install a 30-day evaluation version without a serial number.)

OPERATING SYSTEM

Windows 98, Me, NT4, 2000 Professional or XP Professional

PROCESSOR

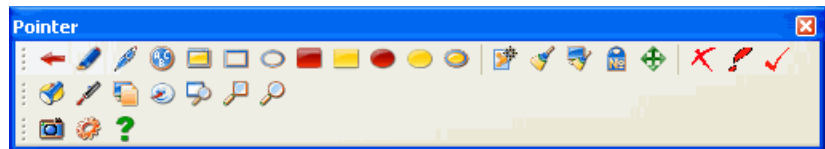

486/66 MHz processor

Working with Pointer

You use Pointer to annotate text or graphics during instruction. During class demonstrations, you can draw attention to areas of your screen using one of over 20 arrows, highlighters, and shapes. You can also zoom in and magnify any part of your screen or spotlight a particular object while the rest of the screen is dimmed.

About the Pointer Toolbars

The Pointer toolbars appear in a single window or menu bar and are divided into three sections.

DRAWING TOOLS

Use this toolbar to start the highlighter and pen tools, or add text boxes and frames to your screen.

VIEWING TOOLS

Use this toolbar bar when you want to spotlight or magnify an area on your screen.

MISCELLANEOUS TOOLS

Use this toolbar to capture your screen, open the Pointer properties, or access Pointer Help.

Technical Support

When you need additional support, try one of the following.

- Refer to Pointer Help.
- Visit www.genevalogic.com for support resources, including Frequently Asked Questions (FAQ) and user documentation.
- Call our Technical Support Team.
