**Introduction**

The Windows version 9.6 of Netop Vision and Netop Vision Pro is a major upgrade, that introduces new features and improvements.

Version 9.6 of Vision and Vision Pro requires new license keys. Customers with a current Netop Advantage agreement are eligible to upgrade to the latest version free of charge. Customers without a valid Netop Advantage agreement need to purchase an upgrade to use the Windows version 9.6 of Netop Vision or Netop Vision Pro.

For more information on your license or to purchase an upgrade, please contact [Netop](#) or your local [Netop Partner](#).

**Improved Support on Microsoft Edge**

Filter web is now supported on Microsoft Edge. When the Teacher turns on Filter web, the Student is allowed to navigate only to certain websites.
When the Teacher turns Lock web on, a graphic will be displayed in the Microsoft Edge tabs, indicating that the Student is not allowed to navigate on the internet.

For installation instructions, check the [Remote Deployment Guide](#).

Improved Support on Firefox

- Version 9.6 fixes the Filter web issues with Mozilla Firefox version 62 and later (for the fix to work, it is recommended to have Mozilla Firefox already installed on the computer when installing the Vision Student)
