# Save time, enhance learning *both inside and outside of the browser*

Easy to use and affordable, Vision helps teachers enhance learning and keep students safe and on-task.

## View Student Screens

See everything your students see on their computers. At a glance, see who is on-task and who needs assistance.

## Blank Screens

Refocus student attention with the push of a button, locking screens and keyboards.

## Showcase Screens

Students can display their screens directly on the other student computers, practicing their presentation skills and enhancing collaboration.

## Share Teachers Screens

Facilitate learning by sharing your screen on every student device. No need for projectors and handouts – give everyone a front row view.

## Push URL

Save time by simultaneously opening the same URL on every student device.

## Web Filter

You decide which websites are available or off-limits.

## Send a Message

Guide student progress and provide instant assistance.

## LMS / SSO integration options

Integrate Google Classroom or Clever

“Vision makes my life easier and saves me time because it gets the students directly to where I want them to be and ensures they are paying attention.”

Elizabeth Gardner | Forest Park Elementary School, Oregon
